Horse and Pony
Contact Person: Pat Comerford, pcomerford@psu.edu

**Pennsylvania 4-H Horse Program
 Projects and Publications**

Horse projects are offered in four interest areas:

- **Performance/Horsemanship (Level 1, Level 2-3)** Members select and care for a horse or pony and keep a record of all activities with their horse at each level.
- **Production** Members in production projects breed a mare and/or raise and handle young horses up to four years of age. Records are kept for each animal enrolled in the project.
- **Competitive Trail Riding** Members learn to select and condition a horse for competitive trail riding. Members maintain records on project horses and record trail riding experiences.
- **Horseless** This project is for member who do not own horses, but want to learn more about them. There are many opportunities for horseless members such as the safety and horsemanship skills programs horse judging, hippology, horse bowl, skill-a-thon and communications contests, and much more!

Publications

4-H Skills for Life Animal Science Series:

These books are used as project activity guides (project books) for each of the project areas. Each level is designed to take 2-4 years to complete. A planning guide at the beginning of each book outlines required and optional activities. Twenty activities should be completed before advancing to the next level.
